

Jobs @ Art Compiler

Math Education Specialist

Art Compiler is looking for a part-time Math Education Specialist to help make the world's greatest math assessment engine for the world's leading publishers of on-line educational content.

In this job you will:

- Develop a map of skills required to perform K12 math
- Write math assessments to test and demonstrate new features
- Identify gaps between the skills map and existing functionality
- Develop "user stories" that illustrate the need for new features

The person we hire will:

- Know K-12 mathematics like the back of her/his hand
- Have experience teaching/tutoring high school math
- Be pursuing or have completed a degree in math education
- Want to shape the future of computing in education

This is a part-time (~10 hours per week) contract position located on University Hill in Boulder. The pay will be competitive and commensurate with the candidate's experience.

If you feel like you are a match with this position, please write a brief note to **Jeff** at **artcompiler** dot **com** telling him why you think you are the one.
